Product Schedule: ProdRates

This schedule attaches to the FaolanIQ Terms and Conditions, published at https://faolaniq.com/legal. If they conflict, this schedule wins for ProdRates. Where you have signed a ProdRates order form, the order form and the ProdRates Subscriber Terms it refers to prevail over this schedule.

Payment is collected by Faolan Consulting (Pty) Ltd on behalf of FaolanIQ (Pty) Ltd.

#	Item	ProdRates
1	**What it is**	Production rate intelligence: a library of production rates, productivity factors, crew mixes and conversion factors, with calculators that turn quantities and crews into manhours and fleet
2	**Sale mode**	A. Subscription, per named seat per month, by pack. Single-use calculators: B. Once-off digital product (item 5)
3	**Price**	Per named seat per month, by pack: Civils and Structures R750; Mechanical and Electrical R950; Architecture and Fitout R550; Complete (all packs) R1,650. The price at checkout is the price you pay. Prices may change only under Terms and Conditions clause 6.5. VAT: see Terms and Conditions clause 6.1
4	**Term and cancellation**	Renews monthly until cancelled. Cancel on 30 days' written notice to info@faolaniq.com or in your account. Fees already paid are not refunded, except as the Refund and Cancellation Policy or the law requires
5	**Single-use calculators**	R1,250 per use, bought at checkout, or at the rate on a signed order form. Each use produces one result for one project. The result is delivered when payment succeeds; a consumer's cooling-off right on it is dealt with in section 5 of the Refund and Cancellation Policy
6	**What the rates are**	**Benchmark values compiled and built up by FaolanIQ. They are estimating guidance, not a quotation, warranty or guarantee of cost or output on any project. Check every rate against your site conditions, labour agreements, location, scope and current prices before you rely on it**
7	**What you may do**	Use rates in your own estimates, schedules, bids and reports for your own projects and clients, and share those deliverables with your clients in the normal course of that work. No deliverable may reproduce rates as a standalone list, schedule or appendix of more than 200 items
8	**Export limit**	**Each named seat may export, download or copy out no more than 500 rows per calendar day (South African time), across every export, download, copy and API function.** The limit is a technical ceiling, not a permission: bulk extraction below it is still a breach
9	**Further restrictions**	No redistribution, resale or sublicensing; no use to build or train a competing rates database, estimating product or machine-learning model; no loading into any AI, large language model or retrieval system except for your own internal use; no removal of attribution
10	**Attribution**	Where a deliverable presents ProdRates rates as a stated basis of estimate, cite "Source: FaolanIQ ProdRates", followed by the pack name, the library version and the date accessed. Attribution does not mean FaolanIQ endorses your estimate
11	**Your data**	Your estimates and project data are yours. We do not use them unless a separate written agreement allows it. Usage and export logs are FaolanIQ service data and are used to meter and enforce the limits
12	**Liability**	Terms and Conditions clause 14 applies. Your liability for breaching items 7 to 9 is not capped
13	**On ending**	The licence ends. Stop using the library and delete any extracted copies, other than rates already built into completed deliverables, and confirm in writing on request
14	**Ownership**	FAOLANIQ (PTY) LTD (registration 2026/456717/07) owns the copyright and compilation rights in ProdRates, including the selection and arrangement of its rates and its calculators, and grants your licence as owner. Faolan Consulting (Pty) Ltd assigned the ProdRates content made up to 2026-09-22 to FAOLANIQ (PTY) LTD by a deed of assignment signed on 2026-09-22. Rights in any third-party source that a rate cites remain with that source's owner

Controls. Intelligence. Delivered.
